TELEMUNDO POLL:
STATE OF THE LATINO VOTE IN TEXAS

HOW THE POLL WAS CONDUCTED

This poll was conducted by Mason-Dixon Polling & Strategy, Inc. of Jacksonville, Florida from October 23 through October 26, 2020.

A total of 500 registered Hispanic voters statewide were interviewed live by telephone in Texas. All indicated they were likely to vote in the November general election.

Those interviewed were randomly selected from a phone-matched Texas voter registration list that included both land-line and cell phone numbers. Quotas were assigned to reflect Hispanic voter registration by county.

The margin for error, according to standards customarily used by statisticians, is no more than ± 4.5 percentage points. This means that there is a 95 percent probability that the "true" figure would fall within that range if all Hispanic voters in Texas were surveyed. The margin for error is higher for any subgroup, such as a gender or age grouping.

QUESTION: If the 2020 election for president were held today, would you vote for:

- **The Democratic party ticket of Joe Biden & Kamala Harris**
- **The Republican party ticket of Donald Trump & Mike Pence**
- **Or one of the other party or independent tickets**
